

# MILLER FELPAX

Locomotive & Freight Car Components / Contract Manufacturing for Rail Suppliers

January 16, 2006

This is to advise of the obsolescence of part numbers 9949128G1 Carrier Assy. and 481A202G1 Wick Assy. used on the GE 761 wide window bearing and axle cap Miller Felpax part numbers 647-201 and 647-400.

The 41C630516G1 lubricator is completely interchangeable in the GE 761 and GE 768 axle caps per attached drawings. The Miller Felpax part number for the lubricator assy. is 922-400, Carrier Assy. is 41B530656G1 (MF 922-300), Wick Assy. is 494A549P1 (MF 717-201).

Please be aware that the 647 lubricator components are not interchangeable with those of the 922-400, 922-300, or 717-201.
